

HIDOE Athletics - Update 9/20/21  
Medical Exemptions

Per Superintendent Hayashi's memo dated August 4, 2021 student athletes need to be fully 2 weeks after the second shot) vaccinated in order to participate in athletics.

For medical exemption requests from the vaccination, the completed medical form is to be submitted to the Athletic Director. Review of the form will be done by school officials and the requestor will be informed of the status of their request.

While awaiting the review of the medical exemption form the student athlete will need to sit out.

If a medical exemption is granted, the student athlete will need to take a COVID-19 test two times a week and test **negative** in order to participate. Test results will need to be turned in to our athletic trainers bi-weekly (days and times TBA).

If you have further questions, please call the Athletic Department 808-266-7910.
